SKILLS

JavaScript | ReactJS | NodeJS

MongoDB | ExpressJS | Redux |

Redux Saga | CSS3 | HTML5 |

Typescript | AWS | NextJS | Chakra

UI | DynamoDB | S3 | Unit Testing |

Integrated Testing | E2E Testing |

ECMAScript | Routing | Bootstrap

Tailwind | material UI | npm | Yarn

Git | webpack

EDUCATION

MSc. Biotechnology

Gautam Buddha University

2022 (8.37 CGPA)

BSc. (Hons.) Microbiology

University Of Delhi

2020 (7.5 CGPA)

LIBRARIES & TOOLS

CSS : Bootstrap, Tailwind, material UI,

Tools: npm, Yarn, Git, IDEs, webpack.

Others: React Testing Library, Cypress, Jest

WORK EXPERIENCE (1 year)

Associate Software Engineer

Hornblower Group (05/2023 - 09/2023)

- Solved **backend bugs**, enhancing system reliability.
- Developed and integrated **new product features** with team.
- **Engaged with clients** to improve and resolve product feature issues.
- Contributed to Anchor - **Internal Ticket Booking Platform**.

Software Developer Engineer I

Panicle Tech (09/2022 - 04/2023)

- Worked on **building dashboards** - Admin portal.
- Actively participated in **improving UI**.
- Participated in **team discussions** to enhance the services.
- **Collaborated with clients** to understand features requirement.
- Contributed to : Enixm and Dhunguru.

PROJECTS

1) Anchor - NodeJS, Express JS , ReactJS, Redux, AWS, GraphQL, Algolia.

- Created APIs utilising **GraphQL** and used **Alogolia** in API implementation.
- **Debugged** Backend Bugs using **Datadog** etc.
- Utilised **AWS Services** like **DynamoDB**, **lambda**, **S3**, **CloudFormation** etc.
- Implemented **Lazy Loading** with **Suspense**.
- Implemented efficient **state management** using **Redux** toolkit.

2) Enixm - NodeJS, Express Js, ReactJS, React Router, MongoDB, Typescript.

- Built project UI from scratch utilising **tailwind**, **typescript** and **React**.
- Built backend from scratch utilising **REST APIs**.
- Used **Single Responsibility Principle** to enhance user experience.
- Worked with **Microservices** and **WebSocket** implementation.

3) Dhunguru - NodeJS, ReactJS, Express Js, MongoDB, React Router, Typescript.

- Created **REST APIs** and integrated **Zoom Meet API**.
- Integrated **cashfree**, **RazorPay**, **Paytm** payment gateways.
- Worked with **Microservices**.
- **OTP based authentication**.
- Implemented **Debouncing** in search.
- **Reduced API calls**, improving efficiency.

POCs

Text Enhancer 

- Integrated **Langchain** and **openAI**.
- Used **Typescript** along with **NEXT JS** and **Chakra UI**.
- Implemented **Unit** , **Integrated** , **E2E (Cypress)** Testing.

Cartoon Hub 

- Used **Typescript** along with **React Js** and **Material UI**.
- **Optimization** : **Infinite Scroll**, **Debouncing** and **Lazy Loading**.
- **Theme Mode** with **Light** and **Dark** options.
- **custom Hooks**
